A Systems Approach Is The Only Way To Address The Opioid Crisis

Lindsay Martin, Mara Laderman

JUNE 13, 2016
Address the opioid crisis in a community

Measures:
- Overdose rate
- Fatal overdose rate
- Individuals in treatment
- Prescription opioid rate

Limit supply of excess opioids

Raise awareness of risk of opioid addiction

Identify and manage opioid dependent population

Treat individuals with opioid use disorder

Limit supply of excess opioids
- Prescribing practices
- Dispensing practices
- Diversion
- Pharmaceutical production
- Availability of alternative pain management treatment

Raise awareness of risk of opioid addiction
- Identification and education of patients at greater risk for addiction
- Provider education
- Adolescent education
- Adult education
- Reducing stigma around substance abuse

Identify and manage opioid dependent population
- Compassionate, consistent care
- Tapering
- Pain management education
- Availability of alternative pain management treatment
- Education of patients and families

Treat individuals with opioid use disorder
- Identification of opioid addicted individuals
- Availability of detox facilities
- Availability of long-term ongoing, comprehensive addiction treatment
- Availability of supportive social services
- Prevention of fatal overdose

IHI Open School Campaign on Substance Use

Why a Campaign?
- Student network of over 500,000 change agents has the skills, will, and energy to take aim at pervasive, persistent injustices and inequities and effect large-scale change

Why Substance Use?
- Urgent global challenge, clear role for students of all professional backgrounds to lead change and make an impact

Features of the Campaign:
- Students will adapt actions to be responsive to local community needs
- Looking beyond the opioid epidemic to address other substance use disorders will improve outcomes for diverse communities – rather than tackle a challenge disproportionately impacting white communities

If not us, who?
If not now, when?
Our Asks of You:

- Use the Open School’s interactive Chapter Map to connect with one of 900 local IHI Open School Chapters near you to see how you can involve students in your efforts.

- Connect with openschool@ihi.org if you are interested in:
  
  a) serving as an organizational partner or advisor to the campaign
  
  b) contributing assets or otherwise supporting this work

Brian Mendell 1985-2011
THE ISSUE...

Less than 1 in 10 people with a substance use disorder who receive any treatment.

Even fewer receive evidence-based treatment.

Less than 30% of specialty addiction treatment facilities offer either methadone or buprenorphine, two of the critical medications to treat opioid use disorder.
CO-CHAIRS:

- Gary Mendell, CEO and Founder of Shatterproof
- Thomas McLellan, PhD, Founder, Treatment Research Institute and former Deputy Director of the White House Office of National Drug Control Strategy.

STEERING COMMITTEE:

- Donald M. Berwick, President Emeritus and Senior Fellow, Institute for Healthcare Improvement.
- Michael Botticelli, Executive Director of the Grayken Center for Addiction Medicine at Boston Medical Center, and former Director of Office of National Drug Control Policy
- Jay Butler, President, Association of State and Territorial Health Officials, and Chief Medical Officer, Alaska Department of Health and Social Services.
- Charles Ingoglia, Senior Vice President, Public Policy and Practice Improvement at the National Council of Behavioral Health
- Penny S. Mills, Executive Vice President/CEO, American Society of Addiction Medicine
- John O’Brien, Senior Consultant at Technical Assistance Collaborative, Inc., former senior advisor for healthcare financing at the U.S. Department of Health and Human Services
- Daniel Polsky, Executive Director of the Leonard Davis Institute of Health Economics
- Betty Tai, Director, Center for the Clinical Trials Network, NIDA
Our Work toward a Solution:

Substance Use Disorder Treatment Task Force

Ensure every American has access to treatment based upon proven research.

Reduction of symptoms related to SUD, improved general health and function, ability to self-manage the disease and avoid relapses.
EVIDENCE-BASED ADDICTION TREATMENT → NATIONAL PRINCIPLES OF CARE

Consistent with evidence-based best practices from *The Surgeon General’s Report on Alcohol, Drugs, and Health*. All findings are:

- Supported by multiple, rigorous research studies in multiple settings and with multiple populations.

- Have been reviewed and approved for accuracy by over 300 independent scientists.

- Accepted and endorsed by all five of the federal agencies most responsible for addiction policy (SAMHSA, NIDA, NIAAA, CDC, FDA, CMS).
## Shatterproof National Principles of Care

Domain 1: Payer-based reform
November 8th announcement

With support and input from the Steering Committee, 16 Payers covering more than 248 million lives, agree to:

1. Identify, promote, and reward care that aligns with the Principles
2. Work with the Task Force to monitor and evaluate implementation strategies
3. Learn and share with other organizations for the greater goal of improving access to and quality
11 Healthcare Payers to Enhance Substance Use Treatment Access

11 of the nation’s leading healthcare payers are aiming to incentivize substance use treatment and expand access to substance use disorder care services.

November 14, 2017 - Executives from 11 healthcare payers have pledged to improve substance use disorder (SUD) treatment access and offer provider incentives to effectively address opioid misuse and other substance use issues.

In a joint letter, payer executives from Aetna, AmeriHealth Caritas, Anthem, Blue Cross Blue Shield Massachusetts, Cigna, UnitedHealth Group, and WellCare expressed their support National Principles of Care for Substance Use Disorder Treatment. The companies voiced their intent to work with the advocacy group Shatterproof towards enhancing SUD care.

The companies voiced their intent to work with the advocacy group Shatterproof towards enhancing SUD care.
Domain 2: Provider Ratings

Provider Ratings will be used by:

1. Consumers to inform treatment selection
2. Providers to improve quality and align with Principles
3. Payers to incentivize high-quality care
4. State Licensors to identify high-quality care.
Supporting Domains:

- Shatterproof: RISE UP Against Addiction 5K Run/Walk
- Shatterproof Workplace Program: Addiction Wellness at Work
- Family Support Groups
- Become an Ambassador
- Share your experience. Advocate for change.
  - Shatterproof Ambassadors are a part of a national network of volunteer peer leaders, educating and empowering others to learn about and support Shatterproof’s mission. Ambassadors are committed to promoting the Shatterproof vision and representing the organization.
  - Being a Shatterproof Ambassador is a rewarding experience that allows you to share your passion for Shatterproof’s mission and help reduce the devastation addiction causes families.
  - As a Shatterproof Ambassador, you will:
    - Introduce Shatterproof to your network of friends, family, colleagues, and community
    - Volunteer at Shatterproof events or on committees
    - Organize information sessions in your community
