Drilling Down:

Recognizing Suicide Risk in the Veteran Population
Important Figures

The rate of suicide was **1.8 times higher** among **female Veterans** compared with non-Veteran adult women. *after accounting for differences in age*

The rate of suicide was **1.4 times higher** among **male Veterans** compared with non-Veteran adult men. *after accounting for differences in age*

**Male Veterans ages 18–34** experienced the highest rates of suicide.

**Male Veterans ages 55 and older** had the highest count of suicide.

**69%** of all Veteran suicide deaths resulted from a firearm injury.
Risk and Protective Factors

Risk
• Prior suicide attempt
• Mental health issues
• Substance abuse
• Access to lethal means
• Recent loss
• Legal or financial challenges
• Relationship issues
• Unemployment
• Homelessness

Protective
• Access to mental health care
• Sense of connectedness
• Problem-solving skills
• Sense of spirituality
• Mission or purpose
• Physical health
• Employment
• Social and emotional well-being

Goal: Minimize risk factors and boost protective factors
VA Suicide Prevention Strategy

The Public Health Approach
Public Health Approach to Suicide Prevention

- The public health approach seeks to answer the foundational questions:
  - Where does the problem begin?
  - How could we prevent it from occurring in the first place?
  - To answer these questions, public health uses a systematic, scientific method for understanding and preventing violence.

1. Define and monitor the problem.
2. Identify risk and protective factors.
3. Develop and test prevention strategies.
4. Disseminate successful strategies widely.
Suicide Prevention is Everyone’s Business

- Continue to increase impact of Office for Suicide Prevention
- Reach Veterans and their families
- Develop innovative prevention strategies
- Change the conversation around suicide
- Build community engagement
National Academy of Medicine (NAM) Classification

- **Universal (all)**
  Universal prevention strategies are designed to reach the entire Veteran population.

- **Selective (some)**
  Selective prevention strategies are designed to reach subgroups of the Veteran population that may be at increased risk.

- **Indicated (few)**
  Indicated prevention strategies are designed to reach individual Veterans identified as having a high risk for suicidal behaviors.
Innovative Practices in Suicide Prevention: Universal (All)

• The Mayor’s Challenge partnership with SAMHSA aims to develop and implement site-specific public health strategies to address Veteran suicide. Teams include collaborative groups of community, municipal, military, and other stakeholders.

• S.A.V.E. is an online training, offered in collaboration with PsychArmor Institute, that is available for free to the public. The 25-minute course helps learners develop a general understanding of suicide, learn how to identify a Veteran at risk for suicide, and know what to do if they identify a Veteran at risk. [https://psycharmor.org/courses/s-a-v-e/](https://psycharmor.org/courses/s-a-v-e/)
Innovative Practices in Suicide Prevention: Universal (All)

- The #BeThere suicide prevention initiative teaches members of the community how simple actions can help save the life of a Veteran in crisis. [www.veteranscrisisline.net/bethere.aspx](http://www.veteranscrisisline.net/bethere.aspx)

- Make the Connection connects Veterans, their family members and friends, and other supporters with information on issues that affect Veterans. [www.maketheconnection.net](http://www.maketheconnection.net)

- Coaching Into Care (1-888-823-7458) is a national telephone service from VA that aims to educate, support, and empower family members and friends who are seeking care or services for a Veteran. [www.mirecc.va.gov/coaching](http://www.mirecc.va.gov/coaching)
Innovative Practices in Suicide Prevention: Selective (Some)

- The Rocky Mountain MIRECC TBI Toolkit gives mental health clinicians information for addressing the needs of military personnel and Veterans with co-occurring TBI and mental health conditions. [www.mirecc.va.gov/visn19/tbi_toolkit](http://www.mirecc.va.gov/visn19/tbi_toolkit)
- To improve lethal means safety, VA is training providers in lethal means safety counseling and educating Veterans and their families about how safe storage of lethal means can save lives.
Innovative Practices in Suicide Prevention: Indicated (Few)

• **REACH VET** uses data to identify Veterans at high risk for suicide, notifies VA providers of Veterans’ risk assessment, and enables providers to re-evaluate and enhance Veterans’ care.

• The **VA Suicide Risk Management Consultation Program** provides a free, one-on-one consultation for any community or VA provider who works with Veterans. [www.mirecc.va.gov/visn19/consult](http://www.mirecc.va.gov/visn19/consult)

• The **Toolkit for Therapeutic Risk Management of the Suicidal Patient** uses clinical, medical, and legal best practices to inform a model for the assessment and management of suicide risk. [www.mirecc.va.gov/visn19/trm](http://www.mirecc.va.gov/visn19/trm)
National Strategy for Preventing Veteran Suicide

**Goal:** Provide a framework for identifying priorities, organizing efforts, and contributing to a national focus on Veteran suicide prevention over the next decade.

- Consists of 4 strategic directions, 14 goals, and 43 objectives.
- Leverages the public health approach to suicide prevention.
- Focuses on the importance of **collaboration** and **urgency**.

Leveraging the Public Health Approach
Partnerships and Suicide Prevention

- Not all Veterans get services from VA.
- Partnerships help VA amplify our message, extend to populations we wouldn’t have reached, add resources, and enhance our knowledge and data.
- VA and its stakeholders must find innovative strategies to serve Veterans who do not – and may never – seek care, benefits or services from within its system.
- This requires VA to reach beyond the health care setting and empower local actors to prevent Veteran suicide in other sectors, including:
  - Non-VA health care
  - Veterans and Military Service Organizations
  - Faith communities
  - Higher learning
  - Law enforcement and criminal justice
  - Employment
  - Community service
  - Nonprofits and nongovernmental organizations
  - Media and entertainment
  - Private sector industries
  - Public-private partnerships
  - Federal, state and local government
VA Suicide Prevention Resources
Learn to Recognize the Warning Signs

• Those in crisis often display **warning signs:**
  • Hopelessness; feeling like there’s no way out
  • Anxiety, agitation, sleeplessness, or mood swings
  • Feeling like there is no reason to live
  • Rage or anger
  • Engaging in risky activities without thinking
  • Increasing alcohol or drug misuse
  • Withdrawing from family and friends

• The presence of the following signs requires **immediate attention:**
  • Thinking about hurting or killing themselves
  • Looking for ways to kill themselves
  • Talking about death, dying, or suicide
  • Self-destructive behavior such as drug misuse, carelessly handling weapons, etc.
