- Services Reimbursed at Medicare rates or equivalent
- Incentives for Healthy Behaviors and Recommended Preventive Services
- Newborns Automatically Covered for One Year
MCO Selection and Auto Assignment in Hoosier Healthwise

Before 2015

- Women delayed in obtaining prenatal care and supports

2015 and After

- Women immediately enrolled in health plan if one not selected, getting essential care management during pregnancy
Ending Payment for Early Elective Deliveries

- Indiana Medicaid does not cover elective deliveries earlier than 39 weeks
- Exceptions for spontaneous birth and medically necessary inductions
- Became 4th state to not cover EEDs

Others: Texas, South Carolina, New Mexico
Reducing Unplanned Pregnancies

- Most states bundle LARCs in a DRG when inserted in an inpatient setting
- Became 13th state to unbundle LARC and reimburse separately on June 1, 2015
  - Others: Alabama, California, Colorado, Georgia, Iowa, Louisiana, Maryland, Montana, New Mexico, New York, Oklahoma, South Carolina
